

K-Love serves me personally as a local resident by offering encouraging music for me and my family. My 4 children listen and my 2 year old already sings along. Our community would be devastated if this station were replaced because it would take away one of the very few options for positive listening. You can't even listen to many other stations without negative attitudes and language being portrayed in the songs and by the disc jockeys. Bottom line, K-Love is an alternative for those of us who need help keeping the right focus in this hectic, crazy world. Please, I implore you not to replace this station.
